

Stay updated.

Protect your data with a current browser.

Having a current browser installed is a key and necessary component to keeping your online banking experience and financial information safe and secure.

As online fraud continues to evolve, browsers have to become more secure with each release to help ensure your safety. No matter what browser you use, make sure you have the latest version installed.

Most browsers should automatically update when new releases are developed and distributed. To check the current version of your browser you can do the following:

- **Internet Explorer** – from the menu bar, select “Help” then “About Internet Explorer”
- **Google Chrome** – click the customize and control button  in the upper right-hand corner of the screen and select “Help” and “About Google Chrome”
- **Firefox** – click the customize and control button  in the upper right-hand corner of the screen, select the “?” on the bottom right of the menu and select “About Firefox”

For additional information on updating your browser, please select the link below that corresponds with your browser:
